Software Update Service

Innovation cycles becoming increasingly shorter don't spare automation software either: in order for you to always be up to date in terms of engineering and runtime software as well as being able to access optimized functions and upgrading possibilities, we are continuously developing and improving our software. With the Software Update Service (SUS) we are offering you a comfortable way of always remaining up-to-date and in this way automatically benefitting from the latest developments.

Order the SUS for your SIMATIC PCS 7 Software and you'll get all related updates for a year free to the door. This service includes all upgrades and service packs of the relevant SIMATIC PCS 7 Software and will guarantee you an ideal ability to plan the updating costs through a favorable annual flat rate amount.

The condition for use is a valid software license in the latest available version. When upgrading to SIMATIC PCS 7 V7.1 within the campaign period you'll get the SUS for a year free of charge.

In order to secure the price advantage you must order the SIMATIC PCS 7 Upgrade Package and the related SUS in the same process. The price reduction is done automatically during the order process. You can find the corresponding product pairs in the tables on the right. This campaign offer is valid up to and including December 2011.

The Software Update Service is automatically extended by a further year if it is not terminated three months before expiry.
