

SIMATIC S7-300

Innovations and new firmware version 3.x for S7-300

Features:

- Performance has been enhanced by a factor of 2 to 5
- CPU 315/317-2PN/DP is 40 mm in width
- 2 PN ports for all S7-300s with PROFINET
- Online status for 2 blocks at the same time
- Dataset routing for CPU 315(F)-2 DP, CPU 315/317-2 PN/DP

Customer benefits:

- More performance for the same price
- Space-saving installation thanks to narrower width
- Simple, low-cost implementation of line topologies is possible with PROFINET
