

# Precise metering and accurate billing

High-performance and extremely accurate water metering  
with SITRANS F M MAG 8000 CT

## SITRANS F

Accurate and reliable water billing is vital in order to preserve a scarce and valuable resource. SITRANS F M MAG 8000 CT, approved according to MID 2004/22/EC, Annex MI-001, is a battery-powered electronic water meter setting new standards for installation, performance, accuracy and low maintenance within water revenue metering. No moving parts ensure long time performance and reliability even under difficult and harsh conditions. Independency to mains power is secured by a proven 6 years non-stop battery operation time. SITRANS F M MAG 8000 CT gives you precise metering and accurate billing. Year after year. More information: [www.siemens.com/flow](http://www.siemens.com/flow)
